ONLINE URGENT CARE COURSE

The Urgent Care Course (UCC) is a one-year course which prepares RNZCUC trainees for the primary examination UCPEX. The UC course and UCPEX are both part of the urgent care training programme, and compulsory for RNZCUC Fellowship. The course is in TalentLMS.

Trainees, Fellows, and those with Educational Subscription will have been provided an account in the RNZCUC TalentLMS. If you believe you should have an account, and don't please contact the TPC or CA, or otherwise email info@rnzcuc.org.nz and explain the situation.

Quizzes are being added to each module to aid learning and confirm completion. The material is regularly reviewed and updated.
