

## MULTISOURCE FEEDBACK SURVEY

Registrars are to complete one within twelve months of commencing the training programme. Fellows and registrars are to complete a MSFS every three years.

RNZCUC acknowledges our members work in a range of different clinical environments where the MSFS in its current form may not be easily transferred – these doctors may apply to the Director of Professional Development to adapt or modify the MSFS to suit their environment while meeting the requirements for peer reviewed multisource feedback. **This is intended to replace the PSS -per mcnz requirements – will need more work/thinking**
