Community

Monkeypox and COVID-19 update for primary care

WEDNESDAY 31 AUGUST, 7:30 PM - 8:45 PM

Presenters include:

DR SAMANTHA MURTON

President, Royal New Zealand College of General Practitioners (Chair)

DR FELICITY WILLIAMSON

Medical Officer of Health and ARPHS Clinical Monkeypox Lead

DR JOE BOURNE

GP, Clinical Advisor, Care in the Community

GARETH FREW

Pharmacist, Clinical Advisor - Therapeutics, Care in the Community

DR AJAY MAKAL

GP, Clinical Advisor, Care in the Community

This webinar will focus on nationally relevant guidance for primary care clinicians managing Monkeypox and COVID-19 in the community.

Topics include:

- Monkeypox—case definition, testing, vaccination, treatment and new Monkeypox pathway
- Overall COVID-19 response— persistent infection, rebound, isolation requirements, international travellers, vaccination
- Care in the Community— COVID-19 transition to business as usual, funding, COVID-19 medicines including Evusheld, long COVID

The webinar will be supported by local representatives and HealthPathways clinical editors who will help answer your questions.

FORMAT

Zoom webinar. The session will be recorded for those unable to attend. The recording will be hosted on HealthPathways, and the MyHealthHub websites. Attendees over 1000 will be directed to a live stream on YouTube.

WHO SHOULD ATTEND

The session is targeted at clinicians managing Monkeypox and COVID-19 in the community.

Up to **1 CME point** or certificate of attendance.

See your local HealthPathways site for latest guidance and local processes.
